

RI TRANSPARENCY REPORT 2020

First Eagle Alternative Credit, LLC

An investor initiative in partnership with UNEP Finance Initiative and UN Global Compact

About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the <u>PRI website</u>, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the 2020 reporting cycle. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information. As a result, the reports can be extensive. However, to help easily locate information, there is a **Principles index** which highlights where the information can be found and summarises the indicators that signatories complete and disclose.

Understanding the Principles Index

The Principles Index summarises the response status for the individual indicators and modules and shows how these relate to the six <u>Principles for Responsible Investment</u>. It can be used by stakeholders as an 'at-a-glance' summary of reported information and to identify particular themes or areas of interest.

Indicators can refer to one or more Principles. Some indicators are not specific to any Principle. These are highlighted in the 'General' column. When multiple Principles are covered across numerous indicators, in order to avoid repetition, only the main Principle covered is highlighted.

All indicators within a module are presented below. The status of indicators is shown with the following symbols:

Symbol	Status
×	The signatory has completed all mandatory parts of this indicator
Ø	The signatory has completed some parts of this indicator
۵	This indicator was not relevant for this signatory
-	The signatory did not complete any part of this indicator
ß	The signatory has flagged this indicator for internal review

Within the table, indicators marked in blue are mandatory to complete. Indicators marked in grey are voluntary to complete.

Indicate whether your organisation has any off-balance sheet assets [Optional].

 $\bigcirc \, \mathrm{Yes}$

No

 \odot Yes, we use a fiduciary manager and our response to OO 5.1 is reflective of their management of our assets.

● No, we do not use fiduciary managers.

We have engaged a sub-adviser with respect to a registered investment fund (representing the entirety of the listed equity AUM shown above). We retain investment discretion over the assets managed by such sub-adviser.

OO 10.2 Indicate why you do not engage and do not require external managers to engage.

We have engaged a single external manager to sub-advise the equity portfolio of a registered investment fund. Such portfolio makes up less than 1% of our asset under management.

Listed equity – voting

 \Box We cast our (proxy) votes directly or via dedicated voting providers

☑ We require our external managers to vote on our behalf.

□ We do not cast our (proxy) votes directly and do not require external managers to vote on our behalf

Fixed income Corporate (financial) – engagement

☑ We engage with companies on ESG factors via our staff, collaborations or service providers.

 \Box We do not engage directly and do not require external managers to engage with companies on ESG factors. Please explain why you do not.

Fixed income Corporate (non-financial) - engagement

☑ We engage with companies on ESG factors via our staff, collaborations or service providers.

 \Box We do not engage directly and do not require external managers to engage with companies on ESG factors. Please explain why you do not.

Fixed income Corporate (securitised) - engagement

☑ We engage with companies on ESG factors via our staff, collaborations or service providers.

 \Box We do not engage directly and do not require external managers to engage with companies on ESG factors. Please explain why you do not.

Human Rights

☑ Other RI considerations, specify (2)

Other description (2)

Anti-discrimination

SG 01.4 Describe your organisation's investment principles and overall investment strategy, interpretation of fiduciary (or equivalent) duties, and how they consider ESG factors and real economy impact.

First Eagle Alternative Credit, LLC ("FEAC") is an investment manager for both direct lending and broadly syndicated private debt investments. As a registered investment adviser, FEAC owes a fiduciary duty to its clients, requiring it to act in its clients' best interests and disclose all material conflicts of interest.

We take a value-oriented, proactive approach to investing focused on security selection, portfolio positioning and efficient, proactive trading. In addition, we are highly focused on risk management including factors such as credit selection, industry allocation, sector rotation, and proactive trading strategies.

In connection with its strategies, FEAC seeks to:

- 1. Consider environmental, health, safety and social issues associated with potential investment opportunities;
- Be accessible to, and engage with, company management and other transaction parties and encourage them to consider any relevant ESG issues with the goal of improving performance, minimizing adverse impact on performance and promoting long-term sustainability to the benefit of multiple stakeholders to the extent permissible;
- 3. Comply with applicable national, state, and local labor laws in the jurisdictions applicable to First Eagle Alternative Credit and its managed entities;
- 4. Consider human rights issues, such as child or forced labor, and anti-discrimination policies.

FI 01.2

Describe your reasons for choosing a particular ESG incorporation strategy and how combinations of strategies are used.

We view ESG integration as a natural extension of our fundamental credit analysis. We chose to integrate ESG considerations directly into our investment analysis process in order to ensure all material risks to business are being assessed over the life of an investment. Our investments in private debt require proactive engagement with company management in order to receive ESG-related information and metrics, which affords us the opportunity to integrate ESG analysis into our credit review. We believe ESG considerations play a fundamental role in a state-of-the-art credit analysis.

FI 03	Mandatory	Public	Additional Assessed	PRI 1

FI 03.1 Indicate how you ensure that your ESG research process is robust:

☑ Comprehensive ESG research is undertaken internally to determine companies' activities; and products and/or services

 \Box Issuers are given the opportunity by you or your research provider to review ESG research on them and correct inaccuracies

☑ Issuer information and/or ESG ratings are updated regularly to ensure ESG research is accurate

□ Internal audits and regular reviews of ESG research are undertaken in a systematic way.

 \Box A materiality/sustainability framework is created and regularly updated that includes all the key ESG risks and opportunities for each sector/country.

 \Box Other, specify

 \Box None of the above

FI 03.2 Describe how your ESG information or analysis is shared among your investment team.

I ESG information is held within a centralised database and is accessible to all investment staff

□ ESG information is displayed on front office research platforms

 \boxdot ESG information is a standard item on all individual issuer summaries, research notes, 'tear sheets', or similar documents

 \boxdot Investment staff are required to discuss ESG information on issuers as a standard item during investment committee meetings

Records capture how ESG information and research was incorporated into investment decisions

- □ Other, specify
- $\hfill\square$ None of the above

(C) Implementation: Integration

We take a holistic approach to credit investing. ESG factors that are identified in the process described below are taken into considerations alongside traditional financial outputs. Proprietary ESG commentary, ratings, scores and other indicators are included in all credit write ups and discussed during investment committee meetings to determine the financial impact of ESG factors on potential and existing investments.

Our analysis is comprised of four key components:

- Pillar-Based Analysis: Identification and individualized analysis of E, S, G and Climate data
- Thematic Analysis: The individual themes within the E, S, G and Climate components drive the numerical output
- Industry and Regional Analysis: E, S, G and Climate assessments by industry and regions of operation
- ESG Scoring Rubric: Proprietary approach used to ensure consistent determinations of the THL ESG Score and Climate Analysis

The analysis above generates several outputs:

- **ESG Score**: The numerical score that is determined via the ESG Scoring Rubric
- **ESG Rating**: Extension of the Score that takes into consideration qualitative components that may not be reflected in the Score.
- ESG Momentum Indicator: Captures the company's relative expected improvement
- Climate Analysis: Qualitative analysis of a borrower's physical and transitional risks as well as materiality
 and preparedness
- Scorecard: Output highlighting detailed components of the Score, Rating, Momentum Indicator and Climate Analysis
- Dashboard: Proprietary system that houses and consolidates all ESG metrics into a centralized database

Our ESG Dashboard is a proprietary data framework that empowers portfolio managers and analysts to efficiently evaluate ESG metrics by issuer, industry, portfolio, rating and individual E,S, G, and Climate risks. The Dashboard is built to be flexible, transparent, and evolutionary, and it allows us to be responsive to our clients' needs regarding transparency and reporting around ESG factors.

We recognize the collaborative and evolving nature of ESG integration. We believe this Dashboard helps to align interests between our firm and asset owners focused on ESG and its advancement.

Through the Scorecard and Dashboard, our credit analyst are able to assess the ESG and Climate related risk and opportunities for each credit that they cover (subject to available data).

	FI 10.2	Describe how your ESG integration approach is adapted to each of the different types of fixed income you invest in.						
	Corporate (financial)							
	Our ESG approach is identical to the approach set forth above for each fixed income investment we manage							
	Our ESG ap	Corporate (non-financial)	set forth above for	each fixed income investme	ent we manage.			
		· · · · ·

Corporate (non- financial)	Environmental Systematically Occasionally Not at all	Social Systematically Occasionally Not at all	Governance Systematically Occasionally Not at all

FI 12.2

Please provide more detail on how you review E, S and/or G factors in your integration process.

Corporate (financial)

We asses detailed E,S & G factors during our initial underwriting process and discuss the factors with our investment committee.

Regarding ongoing monitoring, for a majority of our credits, we have access to management on quarterly conference calls. In addition, we often have direct access to our credit's managements teams intra quarter. This management access coupled with our ongoing research and data feeds from Sustainalytics allows us to monitor E,S & G factors on an ongoing basis.

Corporate (non-financial)

Our approach for Corporate (non-financial) is identical to our approach for Corporate (financial) set forth above.
